EDUCATION

- 2017 - 2026**
UNIVERSITY OF HELSINKI
 - Doctor of Science (**Ongoing**)
(Agroecology)
- 2014 - 2016**
UNIVERSITY OF HELSINKI
 - Master of Science
(Agroecology)
- 2011 - 2014**
UNIVERSITY OF LJUBLJANA
 - Bachelor of Science
(Agronomy)

SKILLS

- Data Science
- Research
- Analysis
- GHG
- Teamwork
- Supervision

PROFILE

I have a strong background in environmental sciences with experience in soil science, environmental measurements, and data analysis. I excel in data analyzing and conducting experiments, and have a proven record of contributing to projects that explore soil carbon, greenhouse gas emissions, and biochar applications.

WORK EXPERIENCE

- University of Helsinki** 2025 - PRESENT
Visiting researcher
 - Data analysis and article writing for doctoral studies
- University of Helsinki** 2017 - 2024
Grant researcher / Doctoral student
 - Participated in planning, coordinating, and completing 6 major research projects
 - Data collection, management, analysis and reporting
- University of Helsinki** 2015
Research Intern
 - Modelling and visualizing at Palopuro agroecological symbiosis pilot project
- University of Ljubljana** 2014
Research Assistant
 - investigating the growing media such as rock wool and its characteristics after being exposed to different water treatments

KEY ACHIVEMENTS

- Vice president of Finnish Biochar Association in 2018, founding member
- Several research grants secured, combined over 200 000€
- Published two peer-reviewed articles
- Supervised 3 MSc thesis
- Ten abstracts at scientific conferences
